DAY 3

THE EMPIRE SYSTEM

How to Stay Consistent
(Without Burning Out)

with Bailey Vann

Top 0.1% Etsy Seller | \$1M+ in Sales

CLARITY → PLAN → CONSISTENCY

Yesterday's homework:

Create your first Winner Hypothesis

Type in the chat:

"CREATED"

if you completed it

"IN PROGRESS"

if you started but didn't finish

**"LIFE
HAPPENED"**

if you didn't get to it

(no judgment!)

Be honest — I want to know where you're at.

★ YOU ARE ALREADY AHEAD

Most people who attend challenges
never do the homework.

You did.
That tells me you're serious.

To everyone else: That's okay.
Today is a fresh start.

The question is: [What's been stopping you?](#)

I want you to think about something.

WHY are you really here?

Not "to learn about Etsy" — that's too vague.

What SPECIFICALLY do you want?

Make it SPECIFIC:

\$ A dollar amount per month?

⌚ A lifestyle change?

❤️ Something for your family?

★ Proving something to yourself?

Type your WHY in the chat. Be specific.

I have two goals for our time today:

1 GIVE YOU MASSIVE VALUE

The most useful 90 minutes on Etsy
you've ever experienced.

2 OFFER YOU SOMETHING

At the end, a way to go deeper
if you want more support.

If I deliver on #1, I've earned the right to do #2.

→ Type "FAIR" if that sounds reasonable.

I'm not asking you to believe everything I say.

I'm just asking you to stay **OPEN-MINDED**.

Maybe this will work for you.

Maybe it won't.

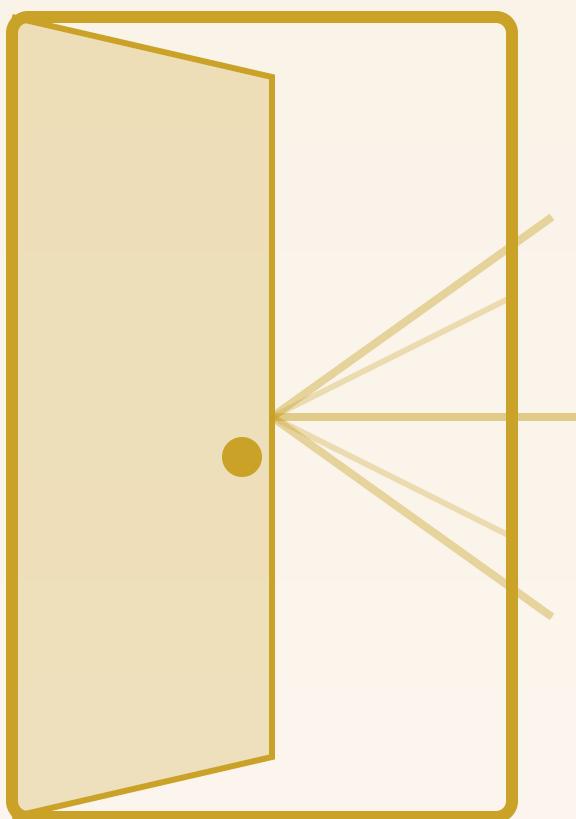

Maybe your situation is
different.

Let me show you the process.

Let me show you the evidence.

THEN you can decide for yourself.

You're smart. I trust your judgment.

I need a commitment from you.

If I show you something that makes sense...
something that could work for you...

Will you actually TRY it?

- Not just nod along.
- Not just take notes you'll never look at.
- Actually **IMPLEMENT** it?

→ Type "**I'LL TRY IT**" if you're committed to implementing, not just learning.

FULL TRANSPARENCY

At the end, I'm going to invite you to join my 90-Day Accelerator program.

You can say yes or no — either is fine.

But either way, the teaching today is YOURS to keep.

→ Type "FAIR" if that sounds fair.

**"Bailey, how do you find the TIME
to create so many products?"**

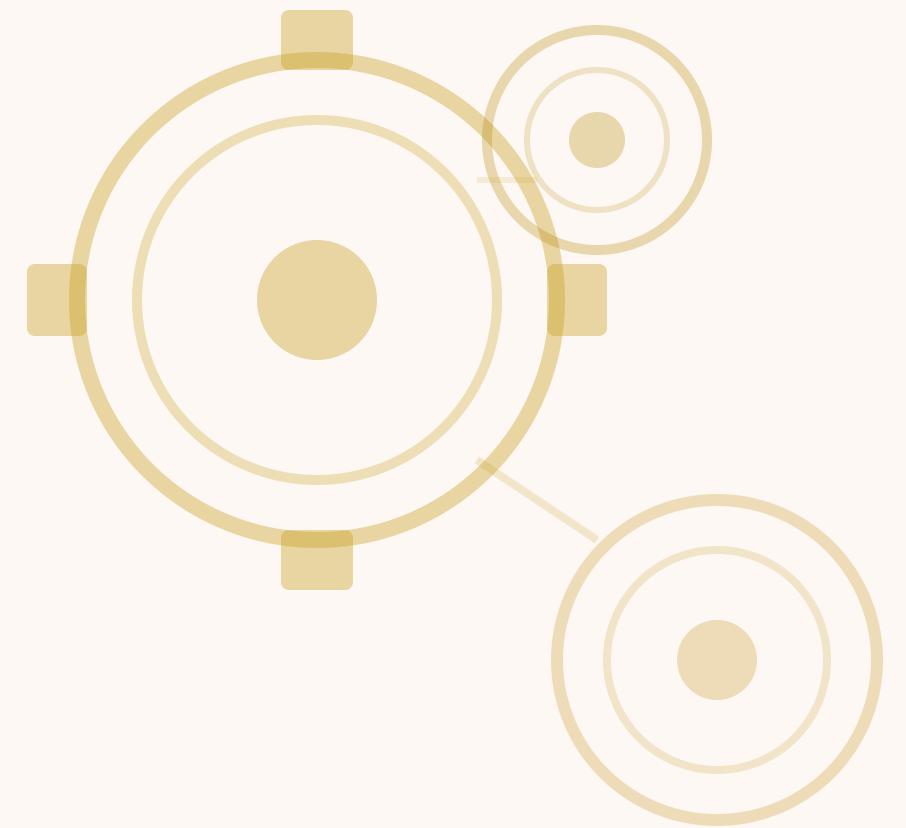

Sound familiar?

You know WHAT to do...

You just can't seem to DO it consistently.

"I don't find time.
I have a
SYSTEM."

And today, I'm giving you that system.

If you're still here at minute 85,
I'm giving you something special:

THE EMPIRE SYSTEM CHECKLIST

- My exact weekly checklist (fill-in-the-blank)
- The "Emergency Mode" protocol (for crazy weeks)
- The Progress Tracker template

This is **NOT** available anywhere else.

Only for people who stay until the end.

I was pregnant with my third child.

I sat down to do the math on going back to work.

Daycare for two kids:

~\$1,500/month

My take-home after taxes:

barely more than that

→ Type "DONE IT" if you've run this math yourself.

So I would be:

- Working 40+ hours a week
- Missing my kids growing up
- Exhausted and stressed
- To basically **break even**

I call this my "Side Hustle Graveyard."

RIP

RIP

✗ Dropshipping — never made a single sale

✗ Kindle publishing — 3 months in, \$47 total

✗ Affiliate marketing — too complicated, gave up

✗ MLM — we don't talk about that one

All those dreams that cost me time and money
and went **absolutely nowhere.**

→ Type "**GRAVEYARD**" if you have one too.

Then I found something that "worked."

Handmade glitter epoxy tumblers. Orders coming in. Money flowing.

But here's what "success" looked like:

- 2 AM, pregnant, inhaling toxic fumes
- Garage overflowing with supplies
- Hands raw from epoxy
- Couldn't take a day off without losing money

I'd built a **prison**
and called it a **business**.

I deleted **ALL** my physical products.

Every tumbler. Every handmade item. Gone.

I went all-in on \$3 digital designs.

Files people download. No shipping. No inventory.

BY MARCH 2022:

 500 listings live

 **\$15,000 month**

 Working 3 hours/week on Etsy

Not luck. Not viral. Just **system**.

I'm not special.

No art degree. No tech background.

No business connections. No trust fund.

No unfair advantages.

Just a mom of four who found a system
and followed it consistently.

The only difference between us?

I started before you. That's it.

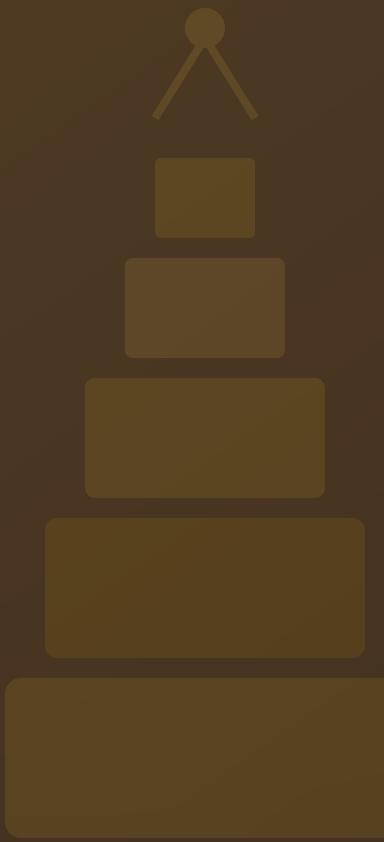

Type "READY" if you're locked in
for the next 90 minutes.

Let's build your empire.

Why This Rhythm Works

O1 Removes daily pressure → No more staring at blank screens every morning

O2 Batching creates flow → Get into creative mode once, produce more

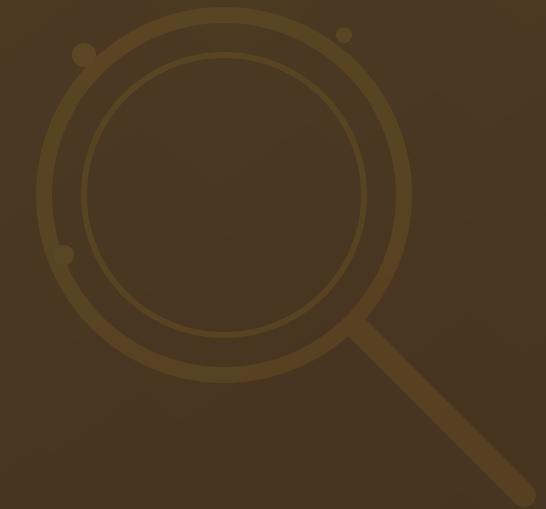

O3 Quality over quantity → 3 great posts beat 7 mediocre ones

Green Lights Criteria

What makes content worth saving?

High Engagement

Lots of likes, comments, reposts → Proof it resonated with an audience

Relevant to Your Niche

Speaks to your audience's problems, desires, or transformation

Clear Structure

Has a framework you can model → Hook, story, lesson format

Makes You Think "I Could Write That"

Gives you ideas → Not intimidating, inspires your own take

Step 3: Build Your Idea List

Your target: **20** validated ideas

If you're doing complex products like planners, 10 solid ideas is fine.

But here's the rule:

Research is DONE when the list is full.

Not when you "feel ready."

When you have the ideas.

WRITE THIS DOWN:

**"I don't trust motivation.
I trust calendars."**

Research ends when the list is full.
Not when you feel like stopping.

My Actual Monday:

I open Etsy and ProfitTree.

I type my base product types: "PNG," "tumbler wrap," "digital planner,"
"printable checklist"

Sometimes I add a niche: "nurse PNG," "western tumbler wrap," "ADHD
planner"

Then I just... look for green lights.

Twenty ideas that fit the criteria.

That's it. That's Monday.

If you had a clear checklist for what makes a "green light" product...

And you ONLY designed products that passed that checklist...

Do you think your hit rate would go up?

→ Type "**GREEN LIGHT**" in the chat if this is clicking.

Speaking of knowing what's working...

There's a **60-SECOND DIAGNOSTIC** I use
to figure out exactly why a design isn't selling.

Traffic problem? SEO issue? Pricing? The design itself?

You can pinpoint it in about a minute.

But that's a whole separate training...

Let me show you Wednesday.

WEDNESDAY: CREATE DAY

One Niche. One Hour. Heavy Volume.

TIME

1 hour

GOAL

10-15 finished designs

MODE

Creative, execution-only

Wednesday is where most people burn out.

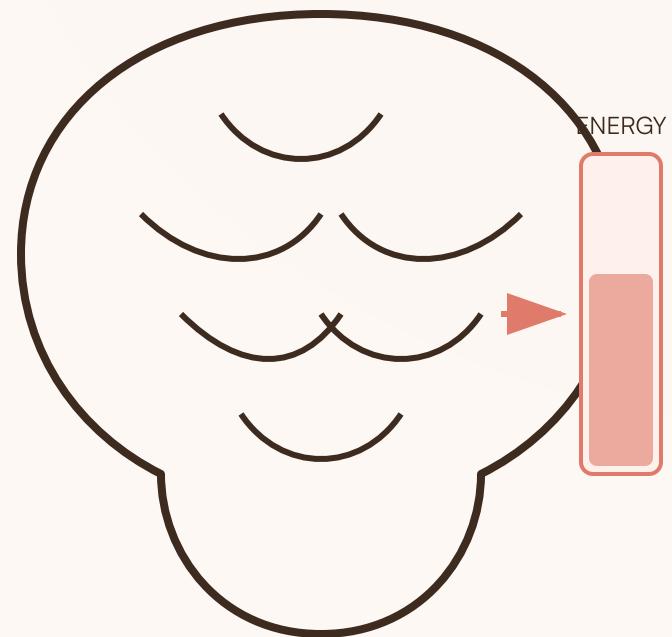

They try to design for five different niches in one sitting.

Nurse PNGs, then teacher stuff, then cowgirl aesthetic, then ADHD planners...

Every time you switch niches, you pay a "brain tax."

New keywords. New style references. New buyer language.

That tax adds up fast.

The Fix:

Pick **ONE** niche from Monday's list.

Spend the entire hour there.

If you found 20 nurse PNG ideas on Monday...

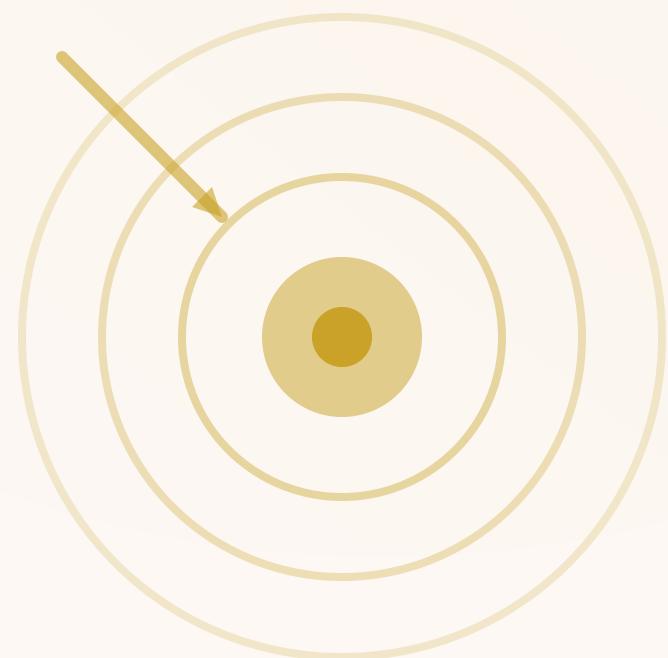

Wednesday is nurse PNG day.

❗ You don't leave the niche until the hour is done.

Why does single-niche batching work?

- Faster decision-making (no context switching)
- Same SEO language (keywords carry over)
- Easier mockups (similar style assets)
- Sets you up to scale horizontally later

- One niche per session = 10-15 finished products.
- ✖ Jumping around = 3-4 products and exhaustion.

1

Take Your Monday Winner

Grab the best-seller screenshot from your research.

2

Drop It Into ChatGPT

Ask for variations — different styles, different aesthetics, same buyer.

"Using this as reference only, give me 10 alternative design concepts that would work for this same buyer, in different styles."

3

Get Quote Variations

"Give me 10 alternative quotes or sayings for this buyer identity."

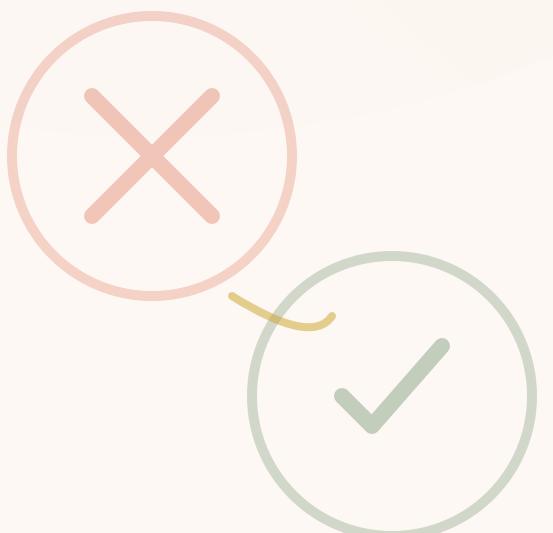

Now you have visual variations AND copy variations.

Mix and match until you hit 10-15 winning combinations.

Notice what we're NOT doing:

- ✗ Asking AI for "a cute design"
- ✗ Starting from a blank prompt
- ✗ Hoping it matches what's selling
- ✗ Guessing at what buyers want

We're reverse-engineering what already works.
Then creating variations of proven demand.

Here's the math that changed everything for me.

I don't need every design to be a winner.

I just need enough **at-bats** for winners to show up.

The At-Bats Math

10-15 designs per week

× 50 weeks

= ???

The At-Bats Math

10-15 designs per week

× 50 weeks

= **500-750 products per year**

Even if only 10-20% become real winners...

The At-Bats Math

500-750 products/year  10-20% hit rate

= **50-150 winning designs in your shop**

50 winners × \$10/month each = **\$500/month passive**

50 winners × \$20/month each = **\$1,000/month passive**

100 winners × \$30/month each = **\$3,000/month passive**

The magic isn't any single product.

The magic is the portfolio.

What does this actually look like?

Month 1: 40-60 products → maybe 5-10 winners

Month 3: 150 products → maybe 20-30 winners

Month 6: 300 products → maybe 40-60 winners

Month 12: 600 products → 80-120 winners building momentum

This is compound growth.

Each month builds on the last.

If you batched by niche...

And used proven references instead of guessing...

And focused on at-bats instead of home runs...

Do you think you could hit 10-15 designs in an hour?

Type "**I CAN**" in the chat.

While we're talking about creating...

I've been testing a new type of digital product
that almost NO ONE on Etsy is doing yet.

Low competition. High margins.
Perfect for this demand-first approach.

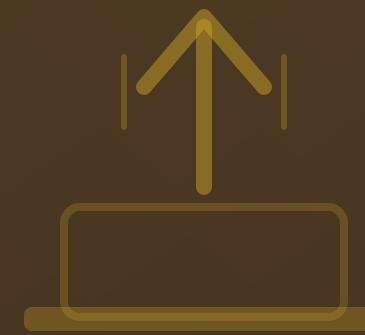

But I'm getting ahead of myself...

Let me show you Friday.

FRIDAY: LISTING DAY

Getting Products OUT of Your Computer
and INTO the Marketplace

⌚ TIME: 1 hour

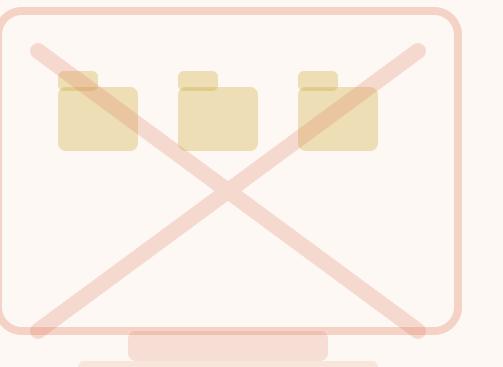

✓ GOAL: 15-20 products fully listed

▣ MODE: Mechanical, checklist brain

**Files sitting on your desktop
don't pay daycare.**

**Designs saved in a folder don't
cover groceries.**

Friday is about getting money-makers **OUT** of your computer and **INTO** the marketplace where they can actually sell.

\$
\$
\$

Friday Mindset:

No research. That was Monday.

No designing. That was Wednesday.

No data deep-dives. That's at renewal time (every 4 months).

Friday is a **FINISH LINE**.

You're not being creative. You're not analyzing. You're publishing.

Listing is data entry.

Treat it like data entry.

Step 1: Bulk Mockups (30-40 minutes)

Options:

- Bulk Mockup tool (fastest for high volume)
- Canva with duplicated pages (good for singles)

5-7 clean mockups per product. That's it.

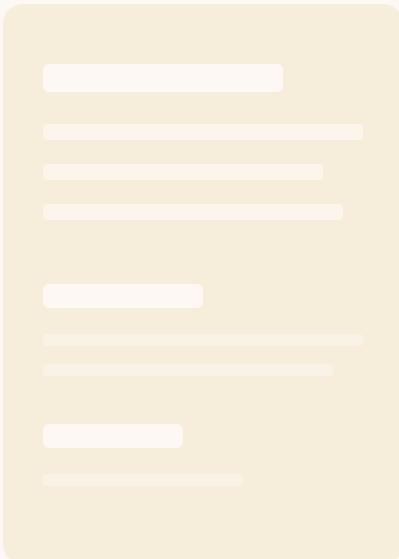

Perfect mockups are nice.

Good-enough mockups are profitable.

Step 2: Use Pre-Built Templates (20-30 minutes)

My rule: Never start a listing from scratch.

Keep templates ready with:

- Base keywords already in
- Title structure set
- Description skeleton written
- 13 tags framework filled
- Standard pricing rules

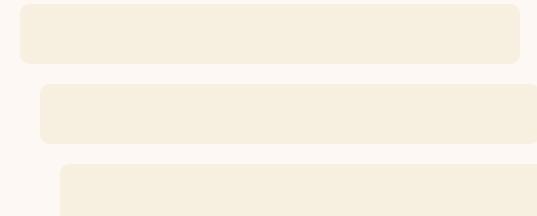

On Friday, you just:

Duplicate → Swap details → Publish

I use Vela for bulk listing.

Why Vela?

- Edit multiple listings at once
- Assistants can list without Etsy login
- Keeps your account safe from flags
- Free for basic use

(I have YouTube tutorials on this if you want the full walkthrough.)

Friday Output:

15-20 products fully live on Etsy.

From designs that were validated on **Monday**.

Created on **Wednesday**.

Published on **Friday**.

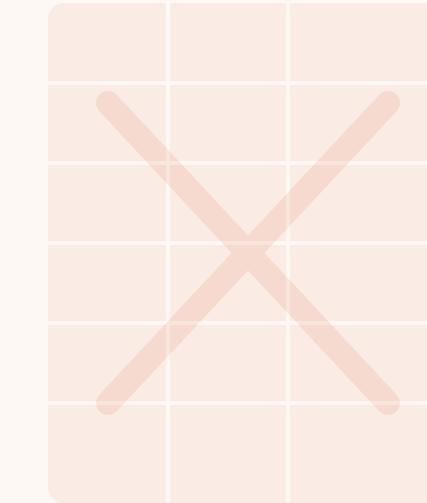

That's the rhythm.

That's how empires get built.

THE RENEWAL RULE

Simple Tracking Without Spreadsheet Hell

Most people think tracking means:

- Daily spreadsheet updates
- Obsessing over every stat
- Hours of data analysis

That's not tracking. That's **torture**.

If the data is **simple**, the tracking should be **simple**.

The Renewal Rule:

Instead of tracking daily, I check listings at renewal time.

That's about every 4 months.

(When Etsy charges you the \$0.20 renewal fee.)

At renewal, each listing gets **ONE question**:

Does this deserve another 4 months of my attention?

IMPORTANT

This is NOT a daily or weekly task. You only do this when a listing renews — about every 4 months. This keeps the system simple instead of overwhelming.

At Renewal, Every Listing Goes Into One of Three Buckets:

This should feel familiar from Day 1...

Three Buckets:

DEACTIVATE

(Dead Weight)

- 0 views
- 0 favorites
- 0 sales
- After at least one renewal cycle

If nobody saw it, nobody wants it.

Turn it off.

Three Buckets:

DEACTIVATE

(Dead Weight)

OPTIMIZE

(Interest But No Purchase)

- ✓ Views
- ✓ Favorites
- ✗ Sales

?

There's demand, but something broke.

Price? Mockup? Style mismatch?

Duplicate → Make changes → Test again.

Three Buckets:

DEACTIVATE

Dead weight → Turn off

OPTIMIZE

Interest, no sales → Fix and retry

SCALE

(The Winners)

Views

Sales

Healthy conversion

If it sells once, assume it can sell 20 more times.

How to scale winners:

- New audiences (nurse → teacher → hairdresser → mom)
- New formats (PNG → tumbler wrap → sticker)
- New seasons (base → Valentine's → Christmas)
- Bundles (single → 4-pack → mega bundle)

This is the same **DELETE** / **OPTIMIZE** / **SCALE** framework from Day 1.

But now you know **WHEN** to apply it.

Every 4 months: quick audit, simple decisions.

Delete the dead weight.

Fix the underperformers.

Scale the winners.

That's the whole tracking system.

THE CEO MATH RULE

When Your Time Creates Money,
Money's Job Is To Buy Back Your Time

Step 1: Know Your CEO Hourly Rate

Let's say your Etsy profit is **\$1,000** this month (after fees).

You worked about 3 hours per week on your shop.

That's 12 hours in the month.

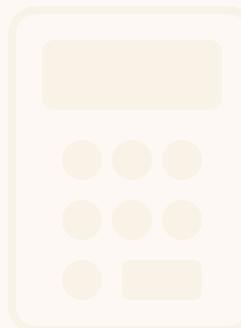

Your "CEO hourly rate" is:

$$\$1,000 \div 12 = \sim \$83/\text{hour}$$

So any task you can pay someone **\$15-20/hour** to do?

That's a no-brainer to delegate.

(If you grow to \$2,000/month on the same 12 hours, your time is worth ~\$167/hour.)

Step 2: Apply the rule

If someone can do a task for **LESS** than your hourly rate?

Delegate it.

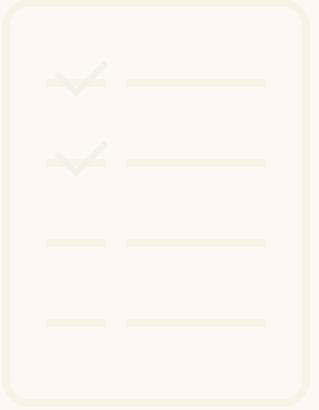

At **\$83/hour**, paying a VA **\$15-20/hour** to do mockups or listings
means you're keeping **\$60+** of value in your pocket.

Your job is the **\$83/hour** work:

Research, creative decisions, strategy.

What to Delegate First:

- Mockup creation (bulk work)
- Listing uploads into Vela
- Copying titles and tags into templates
- Simple admin work

Anything that doesn't require **YOUR** creative brain.

Use tools like Vela so assistants don't need Etsy login access.
(Protects your account from flags.)

Momentum Matters

The energy you feel right now? That's your sign. Take action while it's fresh.

Ready to build your empire? Let's do this.

BEFORE YOU DECIDE

Let's Address What's On Your Mind

I know you have questions. Let me answer them honestly.

Got Questions?

Let me address what might be running through your
mind right now...

" I don't have time.

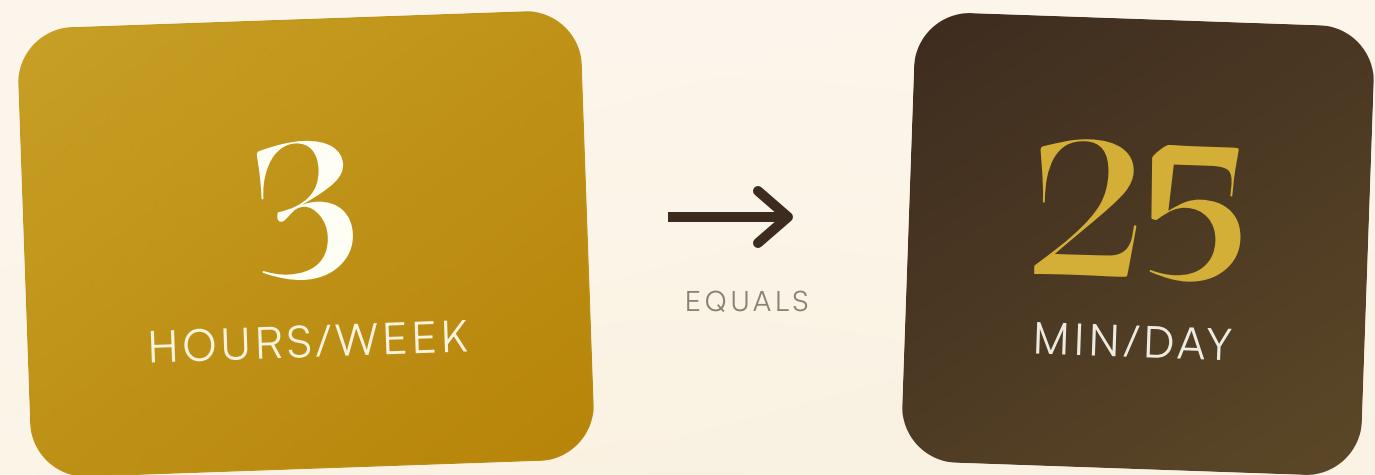

I hear you. Between family, your job, and everything else life throws at you, time feels impossibly tight.

But here's what I've discovered...

**It's not about finding time.
It's about making time count.**

THE TIME MATH

That's less than one Netflix episode.

Less than your morning scroll. Less than waiting for your coffee to brew.

I know your life.

You're up before the kids, stealing 20 minutes of quiet before the chaos starts.

You're working during nap time, lunch breaks, after bedtime.

You're squeezing in Etsy between soccer practice and dinner prep.

You don't have hours to spare. You have pockets of time.

This program was built for those pockets.

⌚ 25 MINUTES A DAY

Is it worth 25 minutes a day to change your entire business?

“

I was skeptical about the time commitment. But once I started, I realized I was spending MORE time before—just spinning my wheels. Now 25 focused minutes gets me further than 3 confused hours ever did.

S

Sarah M.
Empire Builder

The question isn't "Can I afford
this?"
It's "Can I afford NOT to?"

" I can't afford it.

I understand. Money is real, and this is a real investment.

But let me reframe something for you...

INVESTMENT VS EXPENSE

Let's do the math

✗ Expense Mindset

- "That's \$2,497 gone"
- "I could buy X instead"
- "What if it doesn't work?"

⌚ Investment Mindset

- ✓ 10 extra sales/month = \$600/year
- ✓ 30 extra sales/month = \$3,000/year
- ✓ Skills that compound forever

ROI pays for itself in months—not years.

THE REAL QUESTION

What's the cost of NOT investing?

**6 more
months**

of guessing what works

\$1,000s lost

in missed sales opportunities

Hours wasted

on strategies that don't work

Every day you wait is another day your competitors pull ahead.

" What if it doesn't work for me?

My Promise To You

Try the entire program. Do the work. If you don't see results, I'll work with you personally until you do—or give you a full refund.

★ *That's how confident I am this will work for you.*

" I've tried other courses before...

Other Courses

- ✗ Generic advice for any platform
- ✗ Theory without systems
- ✗ "Figure it out yourself"
- ✗ No real community support

This Program

- ✓ Etsy-specific strategies that work now
- ✓ Proven, repeatable system
- ✓ Step-by-step implementation
- ✓ Active community + direct access

This isn't another course. It's a **complete system**.

"I'VE TRIED OTHER COURSES BEFORE."

This isn't a course.

Courses give you information.

Then they leave you alone.

This is:

- Personalized guidance
- Weekly accountability
- Direct feedback
- A community
- Someone who won't let you quit

"I NEED TO THINK ABOUT IT."

Fair. But let me ask: What specifically are you unsure about?

Is it the
investment?

There's a
payment plan

Is it the time?

It's 25 min/day

Is it whether it
works?

There's a
guarantee

Is it something
else?

Let's talk about
it

"I need to think about it" usually means

"I'm scared to commit."

Waiting won't make you less scared. Action will.

"I NEED TO TALK TO MY HUSBAND/PARTNER."

I respect that. Truly. Here's what I'd suggest:

1. Share the Replay

Let them see everything I showed you.

2. Remember the Guarantee

This protects BOTH of you. No risk.

3. Reframe the Conversation

"Would you rather I keep struggling alone, or invest in getting actual help?"

Most partners aren't against investing.

They're against investing **WITHOUT A PLAN**.

This IS the plan.

"IT'S DECEMBER - BAD TIMING WITH THE HOLIDAYS."

Let me show you the calendar excuse pattern:

JAN: "Recovering"

FEB: "Settling in"

MAR: "Spring busy"

SUMMER: "Kids home"

FALL: "School chaos"

DEC: "Bad timing"

There's never a "perfect" time.

90 days from now is MARCH.

OPTION A

Start in March?

Still at zero...

OPTION B

**90 days IN by
March?**

Transformed.

"I'M NOT TECH-SAVVY."

If you can do these three things, you have all the skills you need:

- ✓ Watch a YouTube video
- ✓ Type in a search bar
- ✓ Copy and paste text

You have all the skills you need.

Everything has step-by-step walkthroughs.

My "tech-nervous" students are often the

MOST SUCCESSFUL

Because they follow directions exactly.

"ISN'T ETSY TOO SATURATED?"

96+ MILLION

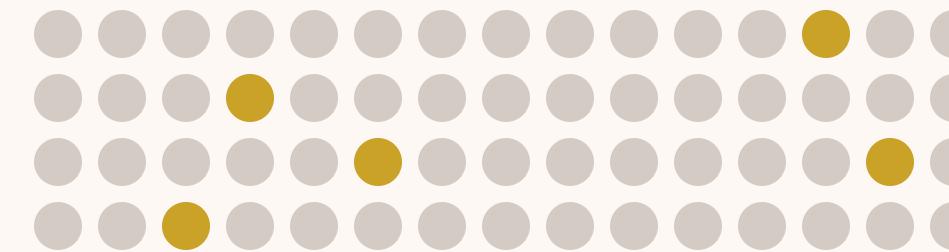

active buyers.

Yes, there are a lot of sellers.

But most of them are doing it wrong.

They're:

- ✖ Not researching demand
- ✖ Ignoring SEO
- ✖ Using terrible photos
- ✖ Quitting after 2 weeks

There's always room for sellers who do it **RIGHT.**

"I'M A COMPLETE BEGINNER."

Good.

- No bad habits to unlearn.
- No wrong strategies to undo.
- You're a blank slate.

The program meets you where you are.
Your personalized roadmap is built for
YOUR level.

Beginners get beginner roadmaps. Advanced sellers
get advanced roadmaps.

PROOF

Sara joined with **O designs** and **O idea** what she was doing.

21 days after she finished Module 1, she messaged:

"I just got my first 3 sales!!"

"I HAVE ADHD / GET OVERWHELMED EASILY."

The Empire System is **DESIGNED** for busy, distracted brains.

- 3 separate days (no marathon sessions)
- Short, focused time blocks
- One thing at a time
- Weekly structure creates focus
- Community keeps you accountable

You don't need motivation. You need a **system**.

That's what this is.

PROOF

Liam has **ADHD** and said he couldn't finish courses.

The 90-day roadmap finally made him follow through -

he hit his first profitable month in 8 weeks.

"THIS WORKS FOR OTHER PEOPLE. I'M NOT SPECIAL ENOUGH."

Let me tell you who succeeds in my community:

→ Women in their 40s and 50s

→ People who "aren't tech-savvy"

→ Moms who just learned Canva

→ People who've "tried everything"

→ Anyone willing to follow directions

The system is what's special. Not me. Not them.

Follow the system → Get results.

The most successful students aren't the most talented.

They're the most **CONSISTENT**.

"I'M NOT CREATIVE. I CAN'T DESIGN THINGS."

Neither can I.

I don't "create from scratch."

I don't sit with a blank canvas and imagine.

This isn't art. It's STRATEGY.

Here's what I actually do:

Research what's ALREADY selling

Use AI to help with designs

Follow templates and formulas

Make variations of proven concepts

The most successful sellers aren't artists.

They're **researchers who execute.**

"WHAT IF I FAIL... AGAIN?"

You didn't fail before.

You TRIED things without:

- ✖ A proven system
- ✖ Personal guidance
- ✖ Accountability
- ✖ Someone checking your work
- ✖ A community for support

That's not failure. That's
EXPERIMENTATION.

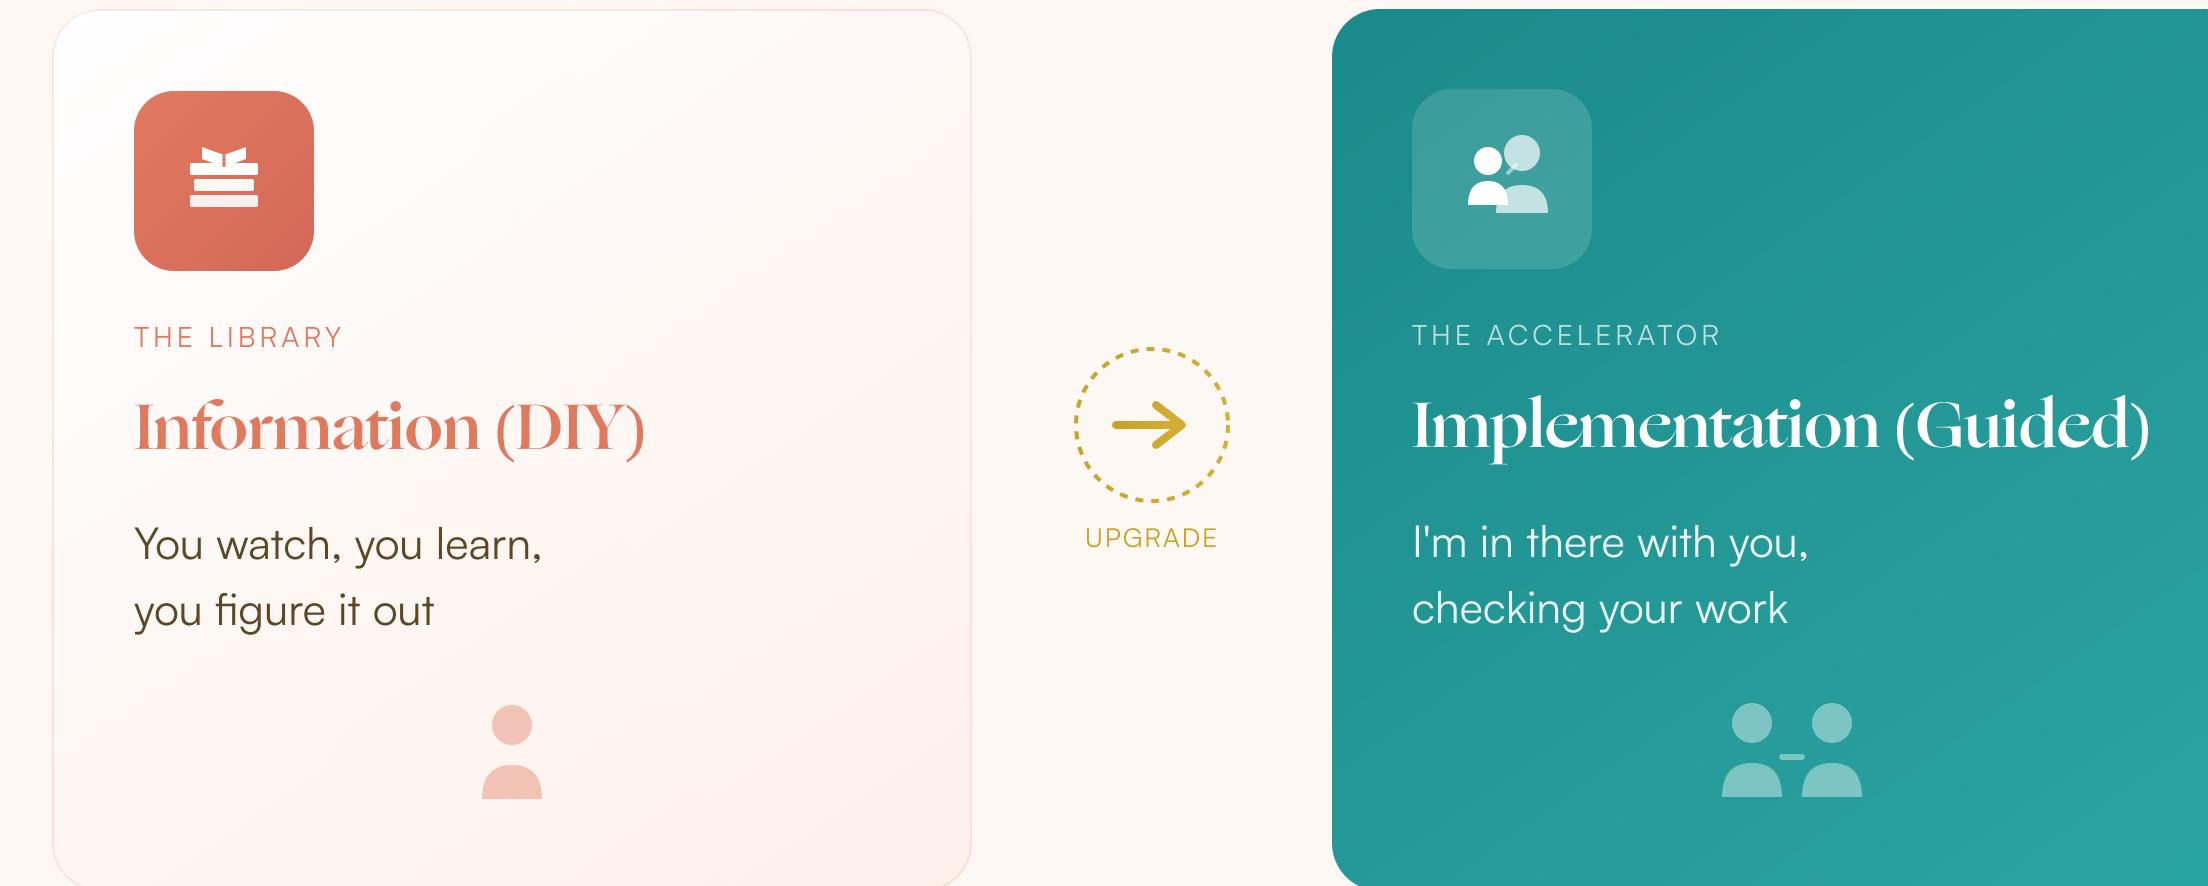

This time is different because
the **SUPPORT** is different.

**The missing ingredient
wasn't you.**

It was the support system.

"I ALREADY BOUGHT YOUR COURSE/MEMBERSHIP."

Yes! And I appreciate that. But here's the difference:

Same content base. Different SUPPORT level.

That's why existing members get **\$600 OFF**.

You already invested in information. Now add the implementation support.

"

"I'M TOO OLD FOR THIS."

"ALL THESE YOUNG PEOPLE ON TIKTOK..."

Let me tell you who actually succeeds:

Women in their 40s, 50s, even 60s

People who "hate computers"

Moms who just figured out Canva

Anyone willing to follow step-by-step instructions

**Being a BEGINNER is actually an
advantage.**

You don't have bad habits to unlearn. You'll follow the system as designed.

I KNOW WHAT MIGHT BE HAPPENING AT HOME.

- Maybe your family is skeptical.
- Maybe they've seen you try things before.
- Maybe there are eye rolls when you mention "another online thing."

I get it. My family didn't believe me either.

Until the results spoke for themselves.

**Results have a way of
silencing skeptics.**

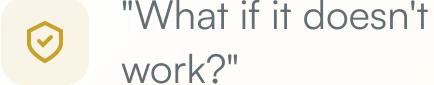

Let them doubt you now.
Let your results answer later.

≡ Common Concerns — Addressed

"No time"

→ 25 minutes/day

"What if it doesn't work?"

→ Double guarantee

"Need to think about it"

→ What specifically?

"Etsy is saturated"

→ 96M buyers, most sellers bad

"Can't afford it"

→ Payment plan + ROI

"Tried courses before"

→ This isn't a course

"Not tech-savvy"

→ Step-by-step walkthroughs

"Complete beginner"

→ Personalized roadmap

"ADHD/Overwhelm"

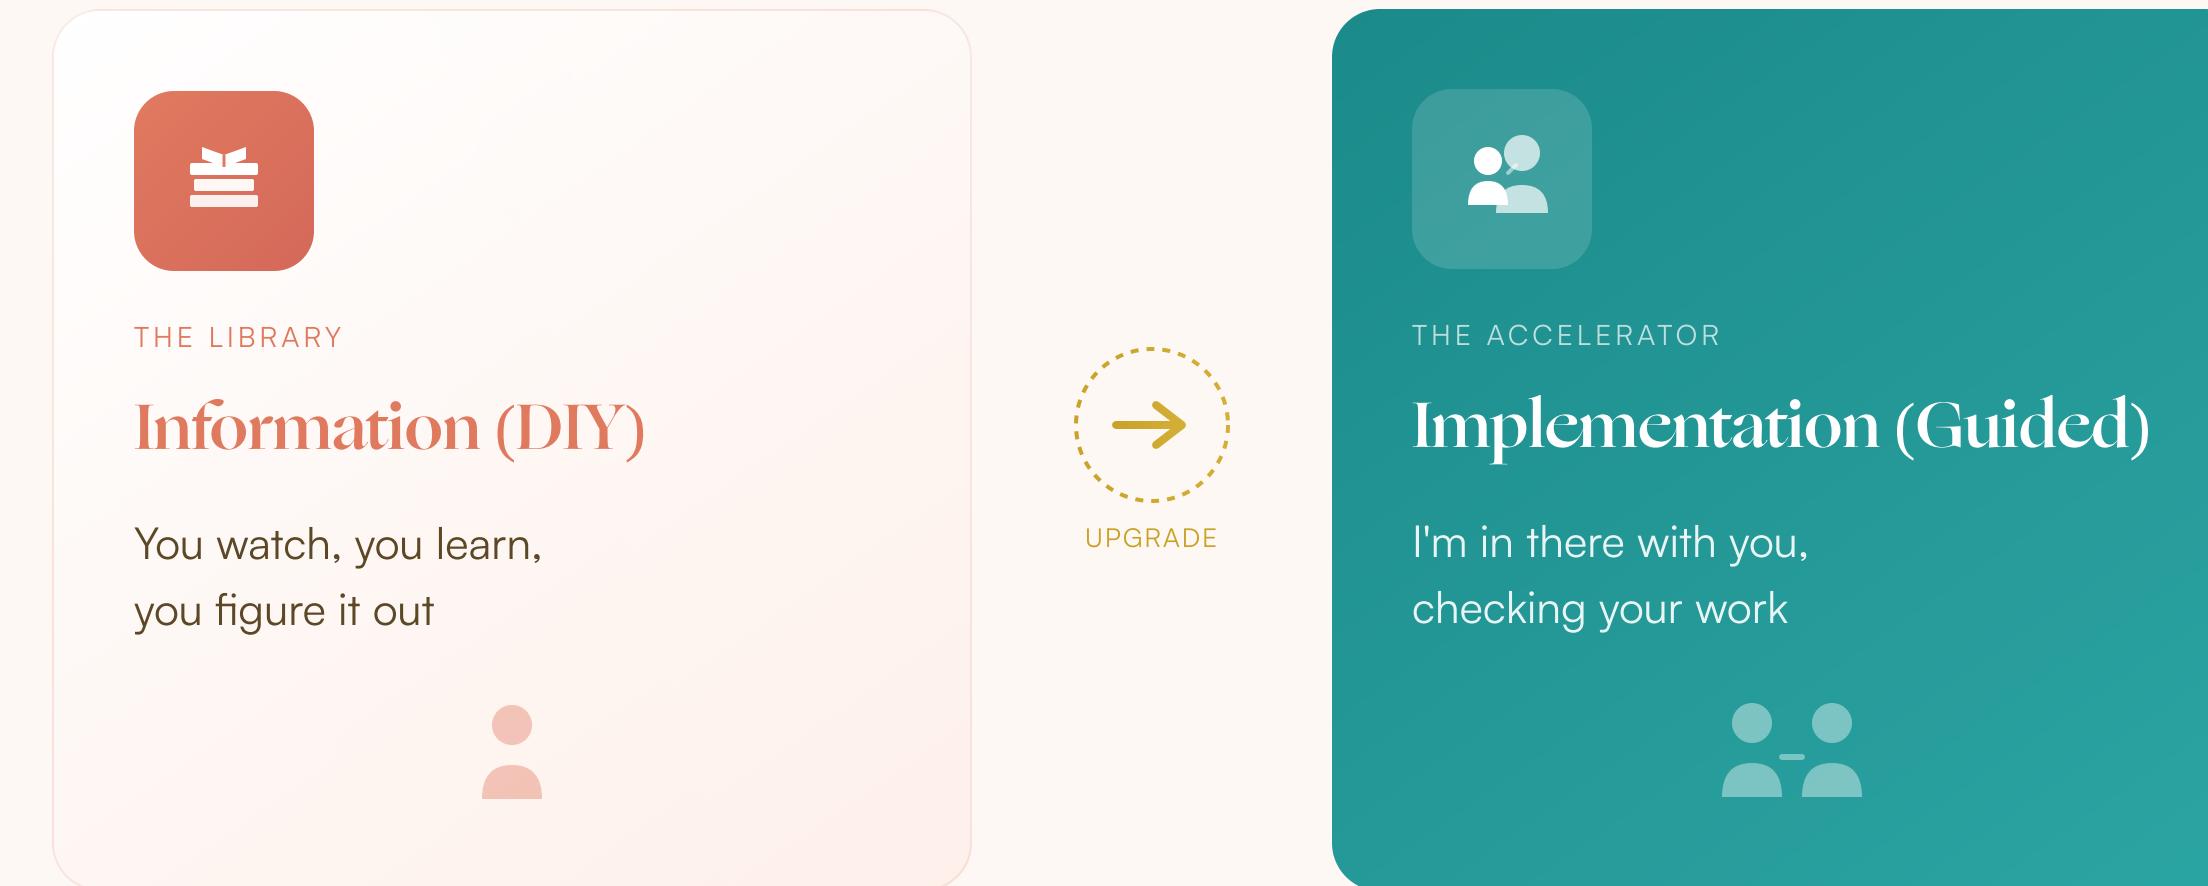

→ System designed for you

IF YOU DO NOTHING...

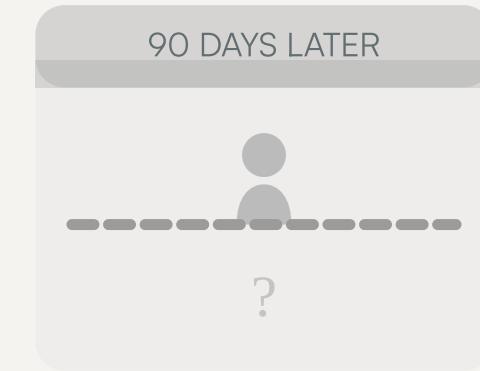

Where will you be in 90 days?

Probably... exactly where you are now.

Same confusion.

Same inconsistency.

Same frustration.

Nothing changes if nothing changes.

YOU HAVE THREE OPTIONS FROM HERE.

OPTION 1

Keep doing what you're doing.

DIY it. Hope 2026 somehow feels different than 2025. Keep watching videos and taking notes you never use.

OPTION 2

Try another cheap course.

Maybe the next \$47 course will finally be "the one." But if you're honest, you've already tried that path.

OPTION 3

Commit 90 days to a system

that's already working for people just like you, with someone actually checking your work and refusing to let you quit.

RECOMMENDED

I built the Accelerator for the people
who are done gambling with their time.

Which option makes sense for where you want to be
in March 2026?

THREE OPTIONS:

- 1 Keep doing what you're doing. DIY it.
- 2 Try another cheap course.
- 3 Commit 90 days to a proven system with real support.

LET ME PUT THIS IN PERSPECTIVE

**Just 90 days from now is
MARCH 2026.**

OPTION A/B

Still be "thinking about" Etsy. Still researching. Still planning. Still "getting ready."

OPTION C

Be 90 days INTO a system. Dozens of products live. Real data coming in.

Same 90 days. Same calendar.

The only difference is what you decide TODAY.

LET'S DO THE MATH ON WAITING.

If you wait 90 days to start...

90 days × \$50/day potential =

\$4,500 LOST

VS

INVESTMENT

\$2,497

COST OF WAITING

\$4,500+

PLUS:

- Momentum you didn't build
- Confidence you didn't gain
- 90 more days of frustration
- Q1 2026 gone without progress

Which is the REAL risk?

IF YOU TAKE ACTION...

Where could you be in 90 days?

 → 60+ new products in your shop

 → A system that runs like clockwork

 → Income that actually grows month over month

 → Confidence that you know what you're doing

 → A community that has your back

That's **90 days away**.

It starts with one decision today.

THIS IS A DECISION POINT.

Not a "maybe later" moment.

Not a "I'll think about it" situation.

A decision point.

Yes

or no.

In

or out.

Action

or inaction.

Which one?

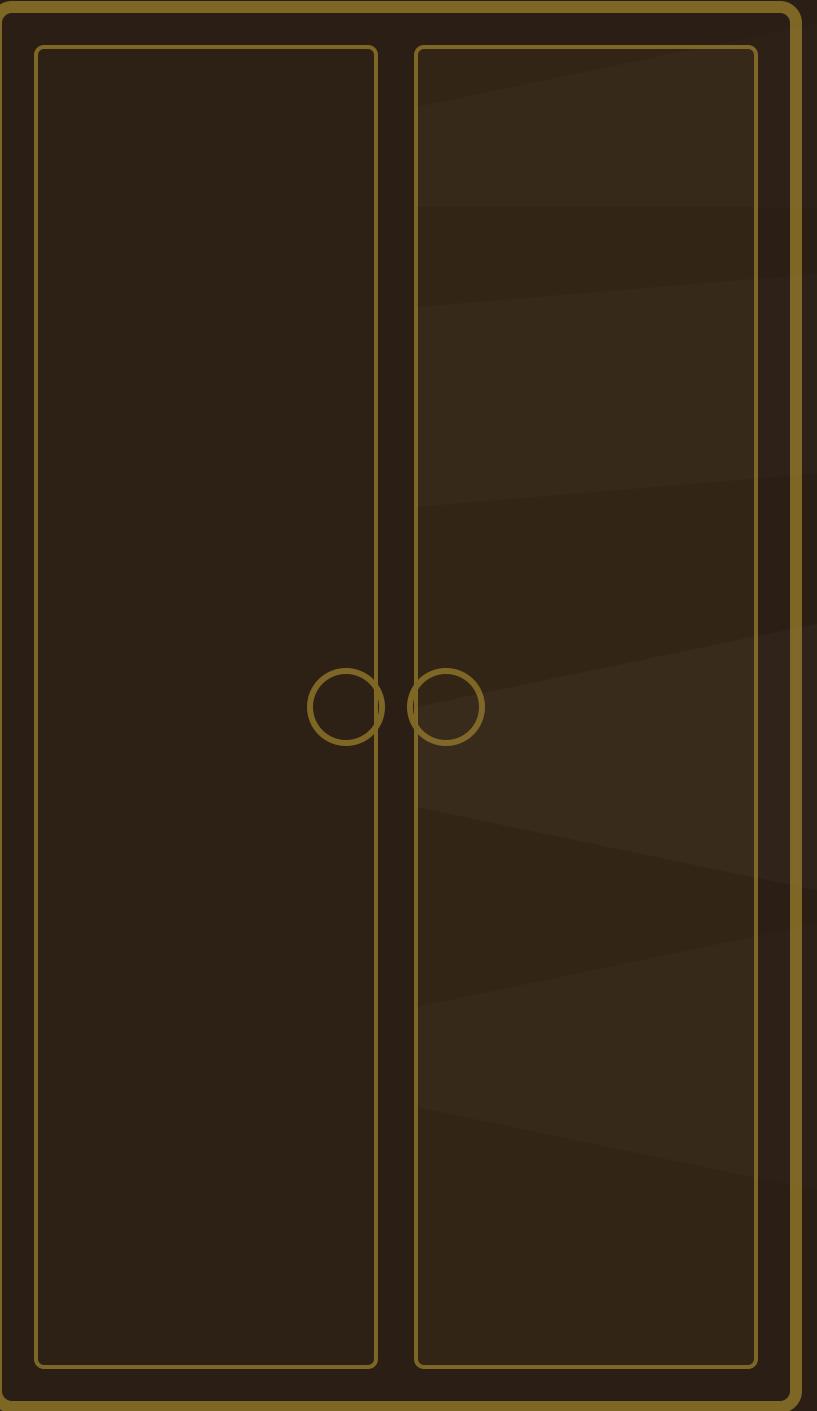

— PERMISSION GRANTED

You Are Allowed to Succeed

You don't need anyone's permission to build a life you love. To create income on your own terms. To do work that matters.

But you do need
a path.

The Real Risk Isn't Joining

It's staying exactly where you are.

1

Another Year Passes

Same job. Same income ceiling. Same "someday I'll start" feeling.

2

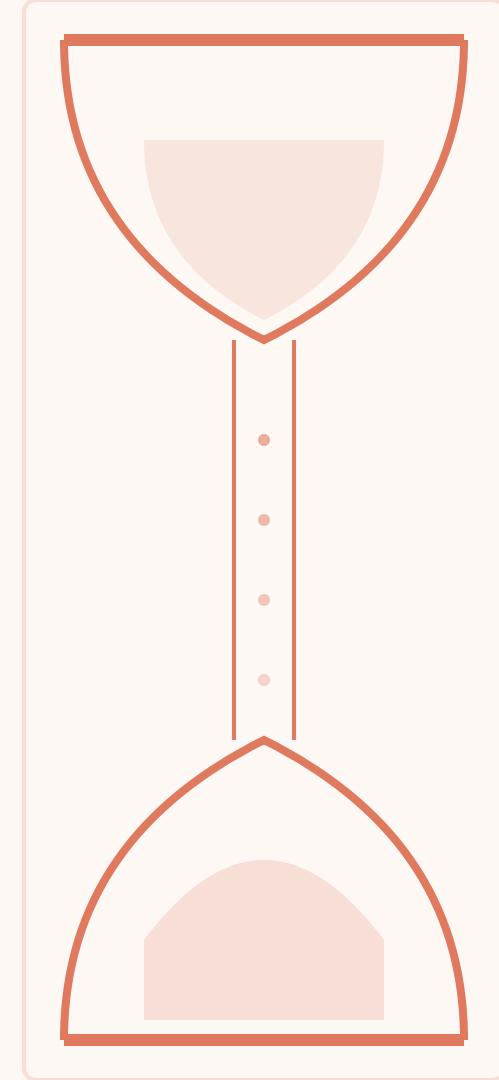

Time Keeps Moving

Kids grow up. Opportunities pass. The "perfect time" never comes.

3

You Wonder "What If"

The hardest part isn't trying and failing. It's never knowing what could have been.

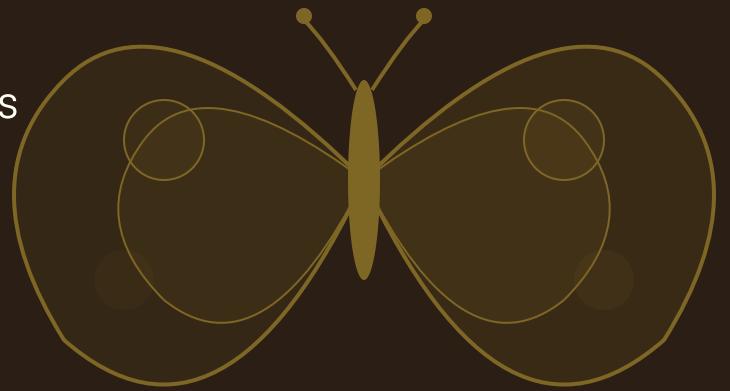

WHAT YOU'RE REALLY BUYING

Not a Course.

A New Version of Your Life.

- ✓ Wake up excited about your work
- ✓ Control your own income
- ✓ Build something that's truly yours
- ✓ Have freedom and flexibility

This is your chance to make it real.

-  I believe you already have what it takes.
-  I believe you deserve income that doesn't depend on trading hours for dollars.
-  I believe this is possible for you in the next 90 days.

That's why I built this program.

I'M NOT TALKING TO
A THOUSAND PEOPLE.

I'm talking to ONE.

The one who stayed through all 3 days.

The one who knows this could work.

The one who just needs someone to say...

"You're ready. Let's go."

OFFICIAL PERMISSION SLIP

This is your permission to say YES.

Signed: **YOU**

THE SIMPLE TRUTH

You can keep doing what you've been doing...

Piecing together free resources.

Trying to figure it all out alone.

Wondering what you're missing.

Or you can get the system, the support, and the shortcut.

**The path forward is simple.
The only question is: Are you ready?**

WHO'S SUCCEEDED WITH THIS?

People who've **never sold online** before

People who thought they weren't "**tech savvy**"

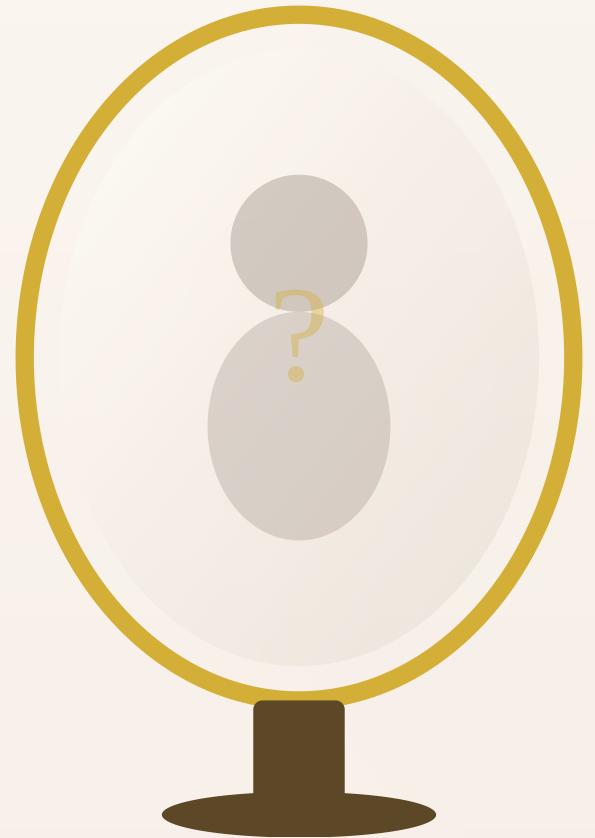

People who'd **tried and failed** before

People who were **just like you**

The only difference? **They said YES.**

BEFORE YOU DECIDE...

Ask yourself:

"Where will I be in 90 days if I don't do this?"

"How many more months of 'figuring it out' can I afford?"

"What am I really risking by saying yes?"

The biggest risk is staying stuck.

MY FINAL WORDS TO YOU

I started where you are.

Unsure. Scared. Wondering if this could really work.

But I bet on myself anyway.

And now I get to help others do the same.

I hope you'll let me help you too.

— *Bailey*

I CHALLENGE YOU

Not to think about it forever.

Not to wait for a "sign."

Not to make the same choice you've made for years.

I challenge you to decide
RIGHT NOW.

Yes or no. But DECIDE.

IF YOU'RE 80% THERE...

If you're mostly sure but something's holding you back...

That 20% of doubt will never fully go away.

You can wait for 100% certainty that never comes...

Or you can trust that 80% knowing and take the leap.

The other 20%? You'll figure it out inside.

THIS IS IT.
